

Pay Out Structure

Pay outs for the Men's Club regular Wednesday and Saturday games will be as follows:

First place gross, then first place net, each paid in like amounts

Second place gross, then second place net, each paid in like amounts.

Pay outs continue as above until all spots are paid. Typically the prize pool is divided 60/40, 60% for net and 40% for gross, this allows for additional spots to be paid to the net prize pool. Normal payout will be approximately one third of the playing field.

All Results for Wednesday and Saturday Men's Club events will be shown as unofficial on the day of the event. Once all cards have been checked and verified payouts will be awarded on the following Men's Club day.

Special events or major events may require a different pay out formula based on the game format.
